PROFILE

Motivated and adaptable professional with strong problem-solving and analytical skills. Able to develop effective solutions in fast-paced team environments, with a commitment to continuous learning, innovation and delivering value.

PROFESSIONAL EXPERIENCE

Intern Software Engineer(Onsite)

Hayleys Advantis Limited (November 2025 – May 2026)

- Implemented Azure Application Insights for real-time system monitoring and performance tracking across production services.
- Managed cloud resources via Azure Portal – Azure Key Vault (secrets), Azure App Services
- Developed serverless applications using Azure Functions with .NET, reducing infrastructure overhead and improving scalability.
- Designed and implemented cloud architecture components: Azure Front Door, Azure Application Gateway, and Azure Container Apps
- Implemented production-level observability patterns: Trace IDs, Correlation IDs and Idempotency Keys
- Developed and maintained back-end services using .NET Web API following Clean Architecture principles
- Designed and implemented RESTful APIs, performed bug fixing, and improved code quality using SonarQube and Visual Studio
- Implemented SQL Server Change Tracking to ensure data consistency across distributed services.
- Built RESTful APIs with versioning strategies to support long-term scalability.
- Developed and maintained back-end services using .NET Web API following Clean Architecture principles
- Completed training with WorkHub24 and designed automated workflow solutions to improve business process efficiency

TECHNICAL SKILLS

- | | |
|-------------------------|---|
| ► Cloud & Azure | Application Insights · Key Vault · App Services · Azure Functions (.NET) · Azure Portal |
| ► Backend & APIs | RESTful API Design & Versioning · ASP.NET · Node.js/Express |
| ► Frontend | React.js · Angular · Tailwind CSS · HTML · CSS |
| ► Databases | Microsoft SQL Server · MySQL · MongoDB |
| ► Software Architecture | Clean Architecture · MVC Architecture |
| ► Languages | C# · Java · JavaScript · TypeScript |

PROJECTS & PORTFOLIO

All projects are available on GitHub and showcased at the portfolio site below:

GitHub

github.com/Kavindya2002

Source code for all projects including cloud-integrated apps, full-stack systems and API projects.

Portfolio

<https://kavindya2002.github.io/Portfolio/>

Personal portfolio showcasing full-stack development projects, technical skills, certifications and industry experience

CERTIFICATIONS

- ▶ Microsoft Certified : Azure Fundamentals (AZ-900)
- ▶ Microsoft Certified : Azure Data Fundamentals (DP-900)
- ▶ Artificial Intelligence Engineer Course at SLIIT(Stage 1 and 2)
- ▶ Postman API Fundamentals Student Expert Certification
- ▶ Agile Project Management Course on Alison
- ▶ Python for Beginners course at University of Moratuwa
- ▶ Microsoft Student Champs – Earned 5+ certificates from workshops conducted by Microsoft Learn Student Ambassadors, Sri Lanka
- ▶ AZ 104 - Azure Administrator (Following)

ADDITIONAL INFORMATION

Extra-Curricular

- ▶ Member of Leo Club in SLIIT
- ▶ Member of School Prefect Board

Soft Skills

- ▶ Proactive Learner
- ▶ Strong Problem Solver
- ▶ Team-Oriented & Collaborative
- ▶ Leadership & Time Management
